

Call for Nature & Social Responsibility

Safety Network Bangladesh proudly launches a nationwide initiative to distribute **5,000+** medicinal and environment-friendly trees, engaging youth-led and volunteer organizations in a collective mission for greener, healthier communities. The program will begin in districts including Gaibandha, Rangpur, Rajshahi, Satkhira, Khulna, Cox's Bazar, Manikganj, Savar, Jamalpur, and Dhaka (South), gradually expanding across the country. As a symbolic start, tree saplings will be handed over to youth representatives as mementos in the presence of esteemed dignitaries.

The gracious presence of internationally renowned personalities and the spirit of cultural exchange with neighboring nations will greatly enrich this initiative. We warmly call upon our associates and well-wishers to stand in solidarity for a more resilient tomorrow.
